GEORGE A. MANSEAU,

REPORT OF THE POLICE CHIEF

It was once stated that "Life is not so short but that there is always time for courtesy". This truism expresses a principle which should be a common virtue among our law enforcement officers and the citizens of our community.

The task of law enforcement in our community is not an easy one. Certainly, law enforcement is subjected to more criticism and abuse than it has ever been before. Some citizens not only verbally attack police officers, but they also assault them physically without provocation. While such unwarranted action cannot be condoned, the law enforcement officer should not let hostile public reactions affect the manner in which he should perform his duty.

One of the complaints we hear repeatedly from our law enforcement officers is the lack of personal contact is decreasing between the public and our officers. No doubt this is true, but we have a valid explanation for the decline. Some of the reasons involved include the increasing growth of our towns population which of course increases the areas to be policed, the lack of manpower and direct communication between each police vehicle.

As we have stated previously a police department is only as good as the people want it to be, therefore with the help of our citizens in certain areas such as a telephone call to your police department when someone has seen something suspicious occur, or someone behaving in a suspicious manner would help tremendously.

This department has recorded and responded to 524 calls in the past year, some of these calls were reported by alert and concerned citizens in the interest of a safer and better community against crime.

In closing I wish to thank the Board of Selectmen, my fellow officers and especially the people of this community for their cooperation which they have extended to this department.

Respectfully submitted,

ROBERT A. BAKER, SR.,

Chief of Police

REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

Less fortunate than our northern towns, we had too many fires. Carelessness in burning trash and discarding smoking material and children playing with fire caused most of the fires. Your Forest Fire Warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires. A synopsis of these laws follow:

Fire Permit

A *fire permit* is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This includes household waste burning, even if in an incinerator, grass burning, garden trash as well as brush burning. Such burning is restricted by regulation to be *prior to 9:00 a.m. and after 5:00 p.m.*

Exceptions

Commercial or industrial burning is allowed anytime under normal conditions with permission of the District Chief and a permit from the Fire Warden.

Camp or wooden fires are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained from the Laconia Office or at the Ranger Stations. Permits are not required in public

camp or picnic grounds where fireplaces have been built for this purpose.

Penalties

1. For kindling a fire without a permit. Maximum of \$200.00 fine; or imprisonment for not more than 60 days.
2. For kindling a fire by any means willfully or recklessly that shall endanger woodlands the maximum fine is \$500.00 or one year's imprisonment.
3. For failure to totally extinguish a camp or cooking fire before leaving it the same penalties as in (1) above.
4. For dropping inflammable material in or near woodland, maximum fine is \$25.00.

Fire prevention is a personal matter and a good habit. Keep our town free from smokes in 1970.

REPORT OF CIVIL DEFENSE UNIT

Civil Defense in Candia needs your support in order to provide the emergency services that are essential in a community of this size.

We are very pleased to say that we have one of the finest rescue units in the state. Townspeople are invited to inspect the unit. It is an International Metro Van, rebuilt and equipped by the Candia Civil Defense personnel. This unit contains articles too numerous to mention in this report, we have approximately 107 pieces of equipment for emergency uses. The unit is also equipped with an assortment of packets of instant coffee, chocolate and soups, with facilities to heat water and cups to serve them in. Communications is also available in the unit through a General Electric police radio.

As part of this unit we have acquired and rebuilt a trailer mounted generator, for use in night time emergencies and power failures.

Civil Defense training has been made available in Candia and there has been a tremendous interest in the Medical Self Help courses. During the past year there have been many people taking advantage of this free program.

We have also made available copies of Civil Defense booklets "In Time of Emergency" at your local Post Offices, additional copies are available free of charge.

Expenditures through the year have been made modest. Most of the expenditures have been made for surplus items including the C. D. Unit. Other expenses have been for the generator and trailer.

Candia Civil Defense can do it's job for the people of Candia only with your help. During the past twelve months two warning exercises were received, the State Wide, and the Nation Wide Checkerboard test.

I would like to extend my sincere thanks to the Board of Selectmen for their support, to the school for the use of the classrooms, and the citizens who have attended the classes made available to them. And especially to the Civil Defense personnel who have volunteered their time and efforts for this worthy cause.

SUPERINTENDENT'S REPORT

If the people of this nation ever subscribed to the concept of providing equality of educational opportunities, it has never been fully implemented. While some progress has been noted in the districts of Supervisory Union #53 from year to year, it has always been within the framework of the same basic program. It becomes particularly noticeable in the upper grades of the elementary schools, where boys and girls, whose interests begin to differ widely, continue to be subjected to the traditional academic program. With no opportunity to explore within broadened educational offerings, some young people become disillusioned about the values of education and, subsequently, never realize their potential.

Expansion of school programs depends upon facilities, equipment and teachers. For too long have we stood by complacently and allowed schools to be built without first determining what we should build. The reason for this is simple of explanation: Providing specialized facilities is more costly than building traditional academic classrooms; the less expensive the plan, the easier does it become to sell. In deference to the local taxpayer, the priorities of a child's right to an education become subverted. This is not to be construed that the individual property owner is opposed to good education; he rightly stands in opposition to assuming a disproportionate share of the tax load.

The time has come — if we really believe in equality of educational opportunity — to change our thinking about taxation. Based on an antiquated tax structure, providing for schools and all other phases of town government, the local citizens are finding it increasingly difficult to maintain the status quo, let alone improving services. As states have had to seek help from the federal government, it becomes increasingly mandatory that the towns and cities turn to the state.

The big question here is with regard to the method of providing additional revenue. While no particular kind of tax reform is advocated in this report, one needs only to look at the differences in wealth amongst the towns of New Hampshire to appreciate that there are differences in what can be provided for education. The districts that make up Supervisory Union #53 had the following amounts of equalized valuation per pupil in 1968:

Allenstown	\$44,750
Candia	16,268
Deerfield	30,693
Hooksett	30,623
Pembroke	23,277
Raymond	21,974

The equalized valuation per pupil for Allenstown would be considerably lower if all children attended the public schools; a truer figure might be about \$20,000. The state average was \$35,510.

An examination of the wealth in some of the other towns makes it very evident that there is an uneven distribution:

Bow	\$143,259
Meredith	75,343
Newington	179,158
Moultonboro	232,642

Education is a function of the state and it would seem that steps to relieve the communities of the burden they have been carrying are long over due. Not only is the state in great measure ignoring its financial responsibilities, but, through standards imposed by the State Board of Education, even greater demands will be placed on the towns. Placing the blame on the state for not distributing wealth more equitably

is to ignore the fact that it is up to the local representatives to agitate for tax reform in the General Court. Until such time as this occurs, heavier demands will continue to be placed on the local taxpayer, with no appreciable improvement in local education.

This is my last report and I want to take this opportunity to thank the members of the school boards, as well as those citizens who have served on numerous committees over the past years, for their support. I trust that my efforts, though seemingly small at times, have had some impact on the total educational program.
